## SAFE BEHAVIOURS Working through Covid-19

Keep your people safe and your business operating effectively through Covid-19.

Ensure Compliance by:

- Encouraging Individual Ownership
- Avoiding Complacency
- Supporting Effective Communication

## FILMS & ONLINE PROGRAMMES

- Your procedures provide details on **What** needs to be done differently
- › our films engage workers in **Why** these procedures are so important
  - › our virtual programmes support you in **How** best to influence workers

Theatre at Work overcomes a key challenge in this important culture change; we enable buy-in from your frontline teams and support your managers in influencing changes. We have adapted our approach using the power of film and virtual theatre to engage.

### Films for Frontline and Operative Levels

- Short, impactful clips
- Everyday characters
- Key behavioural messages
- Sector specific

These films can be used for staff at all levels and tailored to include your key messages, in a series of short and impactful clips or a complete film.

### Online Workshops for Supervisors and Managers

- Interactive discussion
- Film clips
- Live character interaction
- Skills practice

For supervisors and managers, we provide interactive online workshops using films or a live virtual theatre experience to support them as they influence changes on the ground.
